### Area of use

- For installation outdoors on roof areas or in earthbound open spaces
- For installation indoors

### Specific properties

- Welded overflow pipe in the base, on request also possible in the side wall
- Side walls and base welded
- Upper container edge folded over inwards twice, visible width from the top 30 mm
- Container walls reinforced with welded junction plates that lie on top of each other

### Weight

The gross weight of the planters must be calculated for the order by Optigreen based on the design.

A distinction is made between:

- Installation outdoors or indoors
- Design with water retention or drip irrigation system

The preceding details are guideline values established under laboratory conditions. These values are subject to a certain manufacturing tolerance. The data contained in this product information sheet represents Optigrün's technical knowledge at the time of publication. Optigrün reserves the right to change and update details in accordance with new insights and to modify specified properties accordingly. No liability accepted for misprints.
