Area of use

- For installation outdoors on roof areas or in earthbound open spaces
- For installation indoors

Specific properties

- Welded overflow pipe in the base, on request also possible in the side wall
- Side walls and base welded
- Upper container edge folded over inwards twice, visible width from the top 30 mm
- Container walls reinforced with welded junction plates that lie on top of each other
- Lined with polystyrene panels inside as heat/cold protection
- All insulation provided is free of HBCD flame retardant

Weight

- The gross weight of the planters must be calculated for the order by Optigreen based on the design. A distinction is made between:
- Installation outdoors or indoors
 - Design with water retention or drip irrigation system
